**MERRICK DIXON**  
**PRIMARY EXAMINER**  
**GROUP 1300**

Applicants' election of 7-29-05 is acknowledged. The examiner, has however, further revisited same restriction and believes the elected invention is further restrictable for reasons as set forth herebelow.

2

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1,4-16,26,27 and 31-34 are, drawn to a gypsum plaster with other than clay modifier , classified in class 428, subclass 111.
- II. Claims 2,3,29,30,24,25 and 28 are, drawn to a gypsum plaster with solely clay modifier, classified in class 501, subclass 130.

3

The inventions are distinct, each from the other because:

Inventions II and I are distinct and separate from each other because Invention I does not require clay as a rheology modifier while Invention II does.

4

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6

A telephone call was made to applicant's attorney, Mr. J. Sopko on 9-10-01 to request an oral election to the above restriction requirement, but did not result in an election being made.

7

Applicants who wish to send a facsimile (draft copies) for the examiner's immediate review can do so by using the Examiner's personal fax number at 571-273-1520. **Same facsimiles will not be entered** in the related applications unless otherwise agreed and noted by the examiner.

**The fax number for all other fascimile is 571-273-8300.**
